Poll: The goal of our class time

I want to spend my class time to...

1. ...dive deep into algorithms to learn a handful of things well, at the cost of learning about fewer techniques overall.
2. **...learn a few representative algorithms in depth so I gain intuition, but see a broad range of techniques that I can dig into if necessary.**
3. ...explore and critique as many techniques as possible, so I have a big picture of the options I can draw from for my own projects.

Poll: Implementations

I want to spend my programming time implementing homeworks

Result: Some implementation homeworks

HW2 Presentation Order

- Leo & Brennan – Cytoscape & C.elegans
- Syed – D3 & the dolphin social network
- Xindi & Sarah – Tulip & the network scientist coauthor network
- *Thurs.:* Danielle & Dan – R Studio Shiny & the NCAA '15 football bracket
